

Donabate Community College Business Studies Department

Junior Cycle Business

What will I learn in Business?

Business Studies equips students with the skills and understanding to participate in the working world by helping them make informed decisions and teaching them to manage their personal finances.

In First Year, Students will learn:

- How to manage Income and Expenditure of a household
- How to read and understand a payslip
- How to operate and understand a bank account
- How to be a smart consumer by knowing your rights
- How to save money and the reasons this is important
- How to borrow money and the costs involved

Personal Finance

How to manage your money

Enterprise

How to start your own Business

Economy

Understand the Economy we live in

Other areas of Business covered in the Junior Cycle include:

- How to start your own business
- How the government helps the economy
- How to advertise products and services
- How our decisions impact others in the community
- How to do Market Research for a product
- How to record Business Profitability
- How technology helps a business
