Re: To all Parents and Staff of Donabate Community College

A case of Covid-19 associated with the **Donabate Community College** was notified to the Department of Public Health East on 08/09/2020.

A risk assessment has been carried out by the Department of Public Health East and the college is compliant with all infection prevention and control measures. At this stage no further testing is indicated. However the Department of Public Health will keep this situation under review.

Anyone who develops symptoms of COVID should contact their GP by telephone.

Further information is available at the HSE website, and can be accessed at:
